The 2016 DiversityInc Top 50 Companies for Diversity

April 2016

DiversityInc

New and Improved Specialty List Methodology:

DiversityInc has improved the methodology of our Specialty Lists, making them more nuanced, data-driven and reflective of the evolution in diversity management.

These lists should be considered “new” and companies on each list and their rank cannot be considered a trend.

Part of the more metrics-driven evaluation is to abandon a preconceived set number of companies on a list and only award the number of companies that truly have established leadership results in each area.

As a result, there may be fewer than or more than 10 companies on specialty lists. It's all about the data and revealing the truly best of the best companies.
