Lake Success, NY 11042

Dear ^{Alan} Doctor Blum,

It was my considerable pleasure to receive a copy of the December, 1983 issue and to see how well you had put together a series of articles by such preeminent authors as you have. The issue of smoking in all its facets has been touched on by this issue and I truly believe it will be a landmark in the field of smoking and health. I appreciate the inclusion of Doctors Ought To Care as an organization which is combating the smoking pandemic in your issue, and have received several letters already asking for further information about our organization.

Enclosed is a check for more copies of the December issue for my personal distribution to persons on my mailing list who may not have easy access to your journal.

Again, congratulations on such a marvelous piece of journalism. I feel fortunate to count you among my circle of friends.

Sincerely,

Thomas P. Houston, M. D.
National Coordinator, Doctors Ought to Care
