Dear Dr. Blum:

I would like to thank you for testifying at our hearing on the Tobacco Product Education and Health Protection Act of 1990. Your expert testimony was very informative and will be useful as we consider future action on this legislation.

Your testimony was particularly enlightening. The materials and videotape which you presented demonstrate exceptionally well the techniques used by the tobacco industry to promote their products to young people. The work you have done over the years is very important to the efforts to control the negative health effects of tobacco use.

Sincerely,

Edward M. Kennedy
Chairman
