Dr. Richards
DOC
Medical College of Georgia
1423 Harper Street
Augusta, Georgia 30910

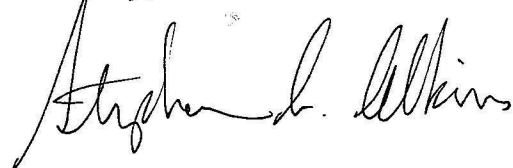

Dear Dr. Richards,

A presentation by Dr. Clint Jones at the ~~State~~ State University of New York at Syracuse has generated interest and support for forming a local DOC chapter. Second year medical students currently comprise the group and we have elected Dr. Jones as our advisor.

Our tentative goals are to approach local 5th graders and present the pervasive and manipulative techniques of the tobacco industry. We are planning on visiting schools in the spring of 1991 and hope this program will generate interest among more medical students. A goal for September 1991 is to be recognized as a campus organization and receive local funding.

We request that a local Syracuse, NY chapter be established under the national DOC charter and that the federal DOC ID number be forwarded so a checking account can be established.

Sincerely,

STEPHAN A. ALKINS
MS II
Acting President
