Brent M. Blue, M.D., President
Wyoming Doctors Ought to Care (DOC)
P.O. Box 3370
Jackson, WY 83001

Dear Dr. Blue:

The results of this year's Rocky Mountain Tobacco-Free Challenge are in. Congratulations to your organization for winning 1st place in the miscellaneous category for your "Tobacco-Free Ski Areas" project.

This was a very good year for Wyoming in anti-tobacco pro-health activity. Of the six Rocky Mountain Tobacco-Free Challenge applications for community tobacco control projects we submitted, five won awards. Only Colorado had as many first place winners as we did. In addition, for state-level activity, Wyoming earned the award for "Most Improved State." Attached is a summary of this year's community awards winners for each tobacco control category.

We have a plaque for your organization that will be presented in a ceremony to be arranged for later this year. I will call you within the next week or two to determine the inscription you want for your plaque.

Congratulations again, and thanks for helping to make 1991 a year of great progress in addressing the most important cause of preventable death and disability in Wyoming.

Sincerely,

A handwritten signature in cursive script that reads "Menlo Futa".

Menlo Futa
Wyoming RMTFC Coordinator
