Dr. Blum,

I have the disk with the image scans (finally). I'll spare you all the details but it's been quite an adventure. LOL

Total cost of the scanning job and the disk is \$39.13. A check in that amount made payable to the "UAB ARCHIVES" can be sent to my attention at the mailing address in my signature file below. Once I receive the payment and the agreement form, I will send you the disk. Be sure to include with your check your preferred mailing address.

Also, attached you will find a PDF file containing our permission form for personal use of the images. Just complete and sign the form and return to my attention, and this will give you the permission to use the images in your presentations. But remember, another separate agreement will be required should you ever wish to publish these and that form routes through the university's legal office.

I'll take a look at the magazines you mentioned over the next couple of weeks and see what I think about the possibilities for their publication. I especially like the one of the hospital volunteer pushing the cart with cigarettes through the hospital. It's one of my personal favorites from our collection, and I think it might make for a good "image of the week" as you suggest.

Best regards,
Tim
