Hi again, Tim,

Just following up on our discussion last month and my email of two weeks ago. I know you're busy, and I hope all's well. Looking forward to hearing from you.

Sincerely,

Alan

Subject: Thank you

Dear Tim,

Thank you for attending my gallery talk at the Lister Hill Library on August 26. It was great reconnecting with you, and I also very much appreciated your bringing photocopies of those seven amazing vintage photographs of smoking in the hospital setting.

Since these photographs speak for themselves, I think they would make a stand-alone pictorial in a journal, with a concise prose explanation. Perhaps we could combine forces on this and submit it with you as first author.

I would very much like to acquire a duplicate set of the photographs for the University of Alabama Center for the Study of Tobacco and Society. (I would hope to include at least one or two images in some future talks to Alabama audiences, and would of course attribute them to you and the University Archives.) Please let me know if this might be possible, as well as the cost.

Againm, thanks for caring.

Sincerely,

Alan
