Dear Anne,

Thank you for your response to my letter condemning Virginia Slims sponsorship of Women's Tennis. That sponsorship has contributed to a few thousand women receiving large sums of money while ~~to~~ 5,000,000 million <sup>american</sup> women have died from the effects of cigarette smoking in the 20 years Women's Tennis has contributed to the promotion of this woman killer (250,000 deaths per year (woman) times 20 years).

Tobacco is not a choice, it is an addictive drug that is promoted by sports sponsorship. Tobacco is not a recent controversy, to elude to such is ridiculous.
