Who is helping to improve the quality of patient care and safety
in hospitals throughout the nation?

We are.

We're Siemens, a global innovation company helping the needs of businesses and communities right here in the US. One of our specialties is providing US hospitals with the tools to improve patient care, while helping to lower costs thanks to our "digital hospital" solutions. We're working with numerous healthcare providers to build health networks that connect telecommunications, IT, medical systems and building technologies in ways never before accomplished. This means less waiting, decreased costs and enhanced care for patients. But unless you're one of the 70,000 Americans that we currently employ, you may not know us. We're Siemens.
