Speakers for the 1985 Health Council Convocation:

Once again, thank you for agreeing to participate in the North Carolina Health Council's 1985 Convocation - **Tobacco: A Dilemma for North Carolina Health Workers.** We continue to be excited about the program and the potential to provide a service to our state's health workers.

I am enclosing two programs for your information. I think you will agree that the topics and speakers will be of interest to a large number of individuals and organizations in the state. We have mounted a publicity campaign which should ensure that the Convocation is well attended.

As I mentioned in my previous letter to you, you will note that we are asking several speakers to repeat their presentation so that more registrants can hear each presenter. I hope that such an arrangement will be acceptable. We anticipate that there will be considerable interest in each of the topics.

I would also remind you that I would like to receive a biographical sketch or resume from you so that appropriate comments can be included in the pre-registration packages. In addition, if you have any requirements for audio-visual equipment, please forward those to me so that I can make arrangements with the McKimmon Center.

We look forward to meeting you and participating in your session at the Convocation. Thank you.

*Bill Beery*
