# An Aspirin A Day?

There's no guarantee it'll keep the doctor away but taking a low-dose aspirin every day could help prevent heart attacks and strokes. Ask your doctor if "an aspirin a day" is right for you.

To learn more about heart disease and stroke, visit [Walgreens.com](http://Walgreens.com) and browse our comprehensive Health Library featuring Mayo Clinic Health Information.

Order prescriptions online @ [Walgreens.com](http://Walgreens.com)

Did you know at Walgreens.com, you can print out your Walgreens prescription expense records? It's a big help during tax season—or any time you need to keep track of your medications and costs!

\*Aspirin can be taken safely by most people, but it's not for everyone. It can have potentially serious side effects.
