"Yes", said the Solicitor, "you can’t do better than put it in the Westminster Park"

"It’s a Trustee Investment, so it’s safe and the money can easily be withdrawn if you need it. Of course, it’s better to have your money if you can — and the Interest, too. Let it accumulate until you really need it. The main thing is that you should plan to put it in this Trustee Investment with interest at 3½% paid (equal to 2½% before tax) so it’s hard to find a better investment."

More than half the money invested in the Westminster Park is the result of ads (pros professional men such as Solicitors and Bank Managers) or come from people who have some experience with the Society.

**Tobacco Shares Go Ahead**

There was a rather dispiriting look about share prices today as a result of the recent performance of the tobacco industry. The latest "Smoking and Mental Health" report did not seem to have much effect on share prices, and the share prices fell off sharply. The share prices in the tobacco market today are 7% below the average of the last few days, and there seems to be a steady decline in share prices.
