

The GREATER UNIVERSITY OF BUFFALO WEEKLY

Vol. 8

UNIVERSITY OF BUFFALO, MAY 18, 1928

No. 30

1928 SUMMER SESSION OFFERS LIBERAL SCHEDULE

Prominent Faculty to Conduct Classes In Many Subjects

Education and Music Courses Approved by State

The 1928 Summer Session of the University of Buffalo will open July 2 and close August 10. Offerings for this year have been greatly extended and there will be a faculty of over fifty members, some of whom are being brought from other institutions.

Courses are being offered in art, education, Arts and Sciences, Library Science, Business Administration, music and pre-professional work.

For the undergraduate college students there is a wide choice of electives on the schedule, which includes art, astronomy, biology, chemistry, education, psychology, English, French, German, history, mathematics, music, physics, sociology, public speaking, and dramatics and speech. Some able and experienced instructors have been procured for the art and music courses as well as for many others. Fourteen courses in six different fields are given for those interested in Business Administration and Commercial Teachers' Training.

The Library Science Course for school librarians and for those who are completing the one year course for a diploma, is offered under the direction of Dr. A. H. Shearer and is approved by the State Extension Division.

All the courses in education leading toward a New York State college graduation provisional certificate will be offered in the Summer Session. The courses required by the state to qualify as a teacher of special classes will also be offered, including an opportunity to do practical teaching in the field.

A number of new courses especially in junior and senior high school fields for teachers, supervisors, and administrators of school work.

The music course offered meets the requirements of the New York State Department of Education leading to a music supervisor's certificate. An art course also is presented leading to a certificate for art teachers and supervisors upon completion of 12 semester credit hours of work.

In the pre-professional group, anatomy and bio-chemistry are given for the medical and dental students.

Dr. Ellis to Deliver Address at Eighty First Commencement

The speaker at the eighty-first commencement will be Dr. A. Caswell Ellis, director of Cleveland College, Western Reserve University. Dr. Ellis received the degree of A. B. from the University of North Carolina in 1894 and the degree of Ph. D. from Clark University in 1897. From 1897 to 1903 he was assistant professor of pedagogy and associate professor of science and art of education; professor of philosophy of education, 1903 to 1908, and director department of extension, University of Texas, 1908-1916.

Dr. Caswell is a member of Phi Beta Kappa, the author of monographs and magazine articles concerning investigations in child psychology and educational administration, and joint author of "Fundamentals of Farming and Farm Life."

Personnel Office Urges Reporting of Conflicts

The Personnel Department urges all who find conflicts in their schedules to fill out and hand in Conflict Forms. If enough Conflict Forms are handed in for one particular course, it is very likely that the time of the course will be changed so that all who wish will be able to take it.

Enthusiastic Alumni Reunion Planned by Former Graduates

Parade and Speeches to Complete Days Program

The second annual reunion of the alumni of the University of Buffalo is being planned with enthusiasm by the "old" and young "grads". The program, announced by the chairman, Henry Adsit Bull, will take place on the campus, June 5, and the new building, Edmund Hayes Hall, will be one of the main attractions, although the meeting will not be in the auditorium unless the weather interferes with the present plans.

Among the speakers will be Dr. A. Caswell Ellis, director of Cleveland College, Western Reserve University, who gives the commencement address that morning, and Walter Platt Cooke, known to the University and the City as holder of the Chancellor's medal and as chairman of the Arbitral Tribunal of Interpretation under the Dawes plan.

Immediately following the commencement exercises at the Elmwood Music Hall, the members of the Class of 1928 will be brought as the guests of the Alumni to the Campus. Luncheon will be served at noon. Music and entertainment will be provided and plenty of time for the "grads" to greet old friends.

The annual Alumnae parade will form at 2 o'clock, and headed by a band and the University Colors, will march around the campus.

According to the five-year plan, the classes attending will be: 1928, 1923, 1918, 1913, 1908, 1903, 1888, 1883, and as far back as there are alumni living.

There will be a program of speeches following the parade, which will be snappy and short, with Dr. Richard W. Boynton, president of the Alumni Association; Mr. Henry Adsit Bull; Dr. A. Bertram Lemos, secretary-treasurer; and others prominent in Alumni affairs on the platform.

The committee in charge of the reunion are: Mr. Bull, Chairman Cussey, Dr. Harry M. Weed, Dr. Charles A. Pankow, John T. Horton, Dr. Richard W. Boynton, Dr. A. Bertram Lemos, John E. McNamara and William G. Cook.

Henry Lenz Elected Editor-in-Chief of Iris for 1929

Iris Contains Many Good Pictures of City Edifices

The 1928 Iris has "smiled" into port this year on time. The color scheme of blue and silver is especially attractive and the marine sketches carry out this year's theme. This year's Hall of Fame includes Dean Gregory, Dr. Dobbie and Dr. Strehm. A good view of the new city hall as well as Edmund Hayes Hall are included. The book is dedicated to the greater city of Buffalo. The price is \$5.50 if you buy it now and \$3.00 if you have already subscribed.

The new staff members are:

Chairman of Iris Board Chas. N. Veigel
Editor-in-Chief Henry Lenz
Book Editor Esther V. Hill
Business Manager Ralph Elliott
Senior Editor Kathryn Mayer
Classes Editor Violin Stanfield
Athletics Editor Norris Miner
Organization Editor Alice Cowles
Fraternities Editor Eileen O'Malley
Activities Editor Margaret Y. Johnston
Feature Editor Grace E. Keller
Circulation Manager, Photographer
Manager, and Advertising Manager
will be selected by next year's editor.

Interfraternity Council Elects Next Year's Officers

Ed. Carroll Lauds Past Work of Council

The Interfraternity Council of the University of Buffalo closed a very successful session by electing officers for the ensuing year.

The officers are:

Thomas Moran President
Marvin Cohen Vice-President
Irving Hyman Secretary
Harvey Sloane Treasurer
Dr. H. G. Hewitt Faculty Advisor

Ed. Carroll, the outgoing President, spoke of the accomplishments of the Council, notably the admission of the local council into the Interfraternity Council of the East. Dr. Hewitt, in a summary of the work of the council, thanked the members for their cooperation. He said that the biggest step, that of organization was completed, and that, in the future, the council should prove to be very successful.

In the discussion for the welfare of the council, it was emphasized that all fraternities should be members of the council for their own and for the general good. Fraternities at the professional schools are especially urged to join. Those fraternities that desire to join the council should communicate with the President or Secretary of the council at the Arts College, 3435 Main street. The dues are \$5.00 per year. The Secretary also asks that each fraternity send to him its correct address so that all communications may be properly delivered. The present members of the council are:

Delta Chi, Kappa Delta Psi, Beta Phi Sigma, Beta Sigma Rho, Omicron Alpha Tau, Beta Chi Epilios, Sigma Kappa Nu, Beta Phi Epsilon, Sigma Alpha Mu, Alpha Beta Phi, Phi Lambda Kappa, Rho Pi Phi, Alpha Omega.

Respectfully submitted,
Irving Hyman, Sec.

Buffalo Graduates Receive Academic Awards from Yale

Scholarships Granted In Psychology And Languages

An announcement was made on Friday, May 11th, by officials of the graduate school that two Buffalo students, both graduates of the University of Buffalo, had shared in academic awards for next year at Yale university.

Mr. Samuel Yoehelson, who received his bachelor of science degree in 1926 from the University of Buffalo and his master of arts degree a year later, was given a Yale university fellowship for research in psychology. Mr. Yoehelson for the past two years has been a member of the psychology department of the University of Buffalo.

A Yale university scholarship for research in Romance Languages was received by Mr. Joseph Hoffman, who received the Bachelor of Arts degree from the University of Buffalo in 1927 and who has been doing graduate work here this past year.

CAMPUS CALENDAR

Monday, May 21 to Tuesday, May 29—Final Examinations.

Wednesday, May 30—Memorial Day: Recess.

Sunday, June 3—Baccalaureate Sunday.

Tuesday, June 5—

Eighty-first Commencement Exercises at Elmwood Music Hall.

Noon—Second Annual Alumni Reunion on Campus.

PAST CHANCELLORS PRAISED IN MARCH ALUMNI NEWS

Philosophy Dept. Inaugurates Class In Idealism

Professor Rice to Give Advanced Spanish Course

Philosophy

201-202. Introductory Survey. First semester: Introduction to Ethics. A consideration of the principles of human conduct, followed by the application of these principles to problems of individual living and of social relations. Second semester: Introduction to Philosophy. A survey of the chief problems men have found in their systematic thinking about life and society; and the methods they have devised for interpreting those problems. Credit: six semester hours.

303-304. Logic and Scientific Method. First semester: The essentials of logic, deductive and inductive. Second semester: Application of logic to some outstanding problems of science and philosophy. Credit: six semester hours.

405-406. Present Philosophical Tendencies. A thorough discussion of contemporary trends in philosophy, chiefly naturalism, idealism, pragmatism and realism, with special reference to their value as systematic outlooks upon the world, and with emphasis upon a reconciliation between the scientific and the religious interests of man. Credit: six semester hours.

409-410. Idealism. A survey of leading types of philosophical idealism in the eighteenth and nineteenth centuries; reading of the sources and written reports to be presented to the group for comment and criticism. Pre-requisite: Philosophy 301-302. Credit: six semester hours.

411-412. Symbolic Logic. A study of the algebra of logic and the structure of deductive systems, including applications to the fundamental concepts of mathematics. Open to under-graduates with special permission. Pre-requisite: Philosophy 303-304. Credit: six semester hours.

Spanish

401-402. Supervised Spanish: Professor Rice will offer a course in supervised Spanish, corresponding to a fourth year in that subject and carrying six semester hours credit. This course may be taken by superior students who have had three years of college Spanish or four years of Spanish before entrance.

318. The Mind of Primitive Man; a study of the psychic life of primitive peoples. Does the mentality of primitive peoples differ from that of (Continued on page 3, col. 4)

Faculty Entertains Students Receiving Higher Degrees

Dr. M. Metcalf to be Principal Speaker of Event

The faculty of the University of Buffalo will be hosts to the students receiving higher degrees this year, members of the graduating class who will continue their studies and members of the faculty who will be on leave of absence for further study next year. The dinner will take place at 6:30 on May 21st.

Dr. Maynard M. Metcalf of Baltimore, research professor of zoology at Johns Hopkins University and secretary of the International Committee on the Enforcement of Research in Colleges, will be the principal speaker. His address will be "Phases of College Research."

Chancellor Capen will preside and the speaker will be Adelbert P. Moell of the State Board of Regents and Dr. Harry W. Rockwell, president of the Buffalo State Teachers' College.

Plans for Alumni Day are Given by Dr. Henry A. Bull

Remedies Suggested for the Football Situation

The March issue of the University of Buffalo "Alumni News" is filled with articles of vital concern not only to those who have graduated, but as well to the present student body of the University. Editorial comment deals with the coming reunion of alumni, the football situation, besides the announcement of several gifts received by the University from its friends.

Mr. Henry Adsit Bull, who is General Chairman of Alumni Day this year, outlines the plans for this function. Dr. Boynton and Dr. Lemos, who devote time and effort to the consolidation of the alumni, are ex-officio members of the committee. Everything has been carefully planned to exceed even the success of last year's reunion, when the campus overflowed with enthusiastic graduates.

Through the pages of Alumni News, the reader becomes acquainted with the learned men who have helped the University grow, the chancellors, Mr. John T. Horton, instructor in history, and government, has written a history of these men, which appears in the alumni magazine. In the March issue, Chancellor Bissell, Gorham, and Charles Phelps Norton are given the praise they so justly merit. Chancellor Norton was the donor of the chancellor's medal, which is awarded each year for the purpose of "personifying civic patriotism and vivifying public service in the eyes of the citizens of Buffalo."

Athletics take up much of the attention of writers in the News "Abolitionist vs. Retentionist" is the title of an article by Gordon Hague, a member of the Athletic Council. The faults in the football situation, which are so well-known, are mentioned, and suggestions are made for their remedy. Dr. Charles Keene, professor of Hygiene and Physical Education, stresses the need for better athletic equipment in "What Price Gymnasium?"

A most amusing account is presented of the reported death of Dr. Byron Pierce, a graduate of the University of Buffalo. In the first issue of the year, the "Alumni News" printed comment on the death of Dr. Pierce. A letter was soon received from the subject of the death notice. Dr. Pierce called the notice "greatly exaggerated." Parts of his letter were as follows, "I was much interested in an article in your issue of the News of October 1st, especially in the heading where my 'decease' is announced. 'I may say that I am very much alive and do my daily dozen, although not with the elasticity and grace that characterized my movements in the gym of the old Canandaigua Academy in 1856.' Needless to say, the editors of the 'Alumni News' are very happy that the notice was 'exaggerated.'

Dr. Richard Boynton writes of the gratitude that alumni should show, since "a university training opens windows in us to the many-sidedness of life, to the opportunities of life, to the possibilities of life, as no other single influence can or does."

Chancellor Capen, in endorsing the alumni organization, makes this comment, "The Alumni Association of the University of Buffalo is a new organization but it has already shown great vitality." Perhaps the strongest, most commendable, and most noteworthy evidence of this vitality is the Alumni News.

ON ACCOUNT OF THE EXAMINATIONS THERE WILL BE NO ISSUE OF THE "BEE" UNTIL JUNE 5.

Mr. Vail Addresses Final Meeting of German Club

Thirty members and friends of Die Deutsche Gesellschaft met last Wednesday evening for the spring banquet of the club which was held this year at Kochers.

Paul Williams, the newly elected president of the German Club, presided. A number of the faculty were present including Dr. Hewitt, Dr. Sy, Dr. Kerr, Professor and Mrs. Schaueroth, Mr. Vail, Mr. Horton and Mr. Born.

After the dinner Paul Williams introduced Mr. Vail as the first speaker. He commended the club upon its en-

thusiasm and the interesting programs they had presented during the year. Of the four German Clubs he has belonged to during his school and college career, he has enjoyed Die Deutsche Gesellschaft of the University the most.

Dr. Sy urged the club to continue the practice of speaking German at the meetings.

Dr. Hewitt gave high tribute to Laurin Buerger, the retiring president, who had done so much to make the club an outstanding success and important.

Professor Schaueroth and Mr. Horton also gave short talks, and Miss Rosalie Fink gave several entertaining readings.

A round of favorite German songs closed the well-enjoyed evening.

Edward Carroll Appointed Member of Commission

Mr. Edward Carroll has been named a member of the Federated Insurance commission which will conduct a research of Old Age Pensions for the government and several lending insurance companies.

A schedule of pensions prepared as a result of the commission's research is to be used in the future by the insurance companies and the government.

Mr. Carroll left for Washington on Tuesday to assume his duties and will remain there till late in September, when it is expected that the survey will be completed.

Dr. George Bargar Lectures to Sigma Xi Club, May 17

Dr. George Bargar, Prof. of Medical Chemistry at the University of Edinburgh, will lecture under the auspices of the Fenton Foundation and the Sigma Xi Club of the University of Buffalo, Thursday, May 17, at 8:30, and Friday, May 18, at 8:15, both at Grossman Library Auditorium.

First lecture, "Chemistry of Hormones."

Second lecture, "Chemistry of Throxin."

Dr. Bargar has been lecturing in many educational centers of the country. He is visiting lecturer and chemistry at Cornell this semester.

The U. B. Sigma Xi Club is an or-

ganization composed of faculty members who have been elected to Sigma Xi honorary scientific fraternity in some other university. The club has as its aim the fostering of research at

HONORS MEETING

Friday, May 18, 1928

Speakers: Gerald B. Leighbody: "The Kinetic Theory and Stellar Evolution."

Edmond J. Farris: "Observations on the Larvae of Eristalis Tenax."

Florence A. Johnston: "Pompeii."

Morris E. Opfer: "Honors Work as an Aid to Sociology."

This will be the last group meeting for the year.

not a cough in a campus-ful! (and of course, "not a cough in a carload")

And still another leading tobacconist in Buffalo, N. Y., says:

"The rapid growth in the popularity of OLD GOLD Cigarettes among the students is remarkable. Never in my experience have I seen a new cigarette catch on so quickly with the boys on the campus."

James J. Murphy
Cigar Store
3225 Main Street

AT LEADING COLLEGES.. *This is an Old Gold year*

For a most refreshing change:

"Follow your friends and switch to this smoother and better cigarette"
