Jenner Quiz
of Gouzenko***By Associated Press*

MONTREAL—Strict official secrecy and thick Canadian snow covered the tracks of United States Senators William Jenner (R., Tex.) and Pat McCarran (D., Nev.) today in their quest for what Igor Gouzenko knew about Soviet spying in the United States.

The two top members of the Senate Select Committee on Intelligence arrived here yesterday in a blaze of publicity for their secret meeting with the former Soviet code破译者 whose 1946 flight from the Russians to Canada in Ottawa revealed the Communists when they ring in America and Britain.

After a news conference and closely guarded, closed-parley session with Justice Department agents R. Lemire, of the Royal Canadian Mounted Police, the senators and Lemire slipped into a hotel car late yesterday and drove rapidly off into the snow-covered night.

The meeting was suspended because Gouzenko had been brought to the hotel for the interview, but at the party's later departure he declined to indicate they were engaged for a secret conference.

Jenner and McCarran were accompanied by their committee's associate counsel, J. G. Shawne, and an official representative, United States Ambassador to Canada Charles Shultz, who attended the conference and left with the group.

McCarran had told reporters he planned to stay in Canada over the weekend, but Jenner and Gouzenko agreed reluctantly to be back in Washington for the opening of Congress Wednesday.

Jenner, the subcommittee chairman, told his aides and McCarran "we are concerned with the internal security of our country."

"We have information and facts, and we hope that Gouzenko may be able to add to it," he said.

Lemire said no statement would be issued after the talk with Gouzenko. The Americans had agreed reluctantly to the Canadian government's demand that it should have control over what was published about the meeting.

A Frank Statement to Cigarette Smokers

RECENT REPORTS on experiments with mice have given wide publicity to a theory that cigarette smoking is in some way linked with lung cancer in human beings.

Although conducted by doctors of professional standing, these experiments are not regarded as conclusive in the field of cancer research. However, we do not believe that any serious medical research, even though its results are inconclusive should be disregarded or lightly dismissed.

At the same time, we feel it is in the public interest to call attention to the fact that eminent doctors and research scientists have publicly questioned the claimed significance of these experiments.

Distinguished authorities point out:

1. That medical research of recent years indicates many possible causes of lung cancer.

2. That there is no agreement among the authorities regarding what the cause is.

3. That there is no proof that cigarette smoking is one of the causes.

4. That statistics purporting to link cigarette smoking with the disease could apply with equal force to any one of many other aspects of modern life. Indeed the validity of the statistics themselves is questioned by numerous scientists.

We accept an interest in people's health as a basic responsibility, paramount to every other consideration in our business.

We believe the products we make are not injurious to health.

We always have and always will cooperate closely with those whose task it is to safeguard the public health.

TOBACCO INDUSTRY

5400 EMPIRE STATE

For more than 300 years tobacco has given solace, relaxation, and enjoyment to mankind. At one time or another during those years critics have held it responsible for practically every disease of the human body. One by one these charges have been abandoned for lack of evidence.

Regardless of the record of the past, the fact that cigarette smoking today should even be suspected as a cause of a serious disease is a matter of deep concern to us.

Many people have asked us what we are doing to meet the public's concern aroused by the recent reports. Here is the answer:

1. We are pledging aid and assistance to the research effort into all phases of tobacco use and health. This joint financial aid will of course be in addition to what is already being contributed by individual companies.

2. For this purpose we are establishing a joint industry group consisting initially of the undersigned. This group will be known as TOBACCO INDUSTRY RESEARCH COMMITTEE.

3. In charge of the research activities of the Committee will be a scientist of unimpeachable integrity and national repute. In addition there will be an Advisory Board of scientists disinterested in the cigarette industry. A group of distinguished men from medicine, science, and education will be invited to serve on this Board. These scientists will advise the Committee on its research activities.

This statement is being issued because we believe the people are entitled to know where we stand on this matter and what we intend to do about it.
