

COMING MEETINGS

1. European Symposium on Hormones and Cell Regulation, Bischoffsheim (near Strasbourg), France (Le Bischenberg), Oct. 5-8, 1981.
 2. World Psychiatric Association (Regional Meeting), New York City, (Grand Hyatt Hotel), Oct. 30-Nov. 3, 1981.
 3. American Public Health Association, Los Angeles (Convention Center, various hotels), Nov. 1-5, 1981.
 4. Cancer 1981/Cancer 2001 -- an International Colloquium, Houston (Shamrock Hilton), Nov. 11-14, 1981.
-

1. European Symposium on Hormones and Cell Regulation

"Immunological aspects of the nicotine cholinergic receptor" -- Bernard Fulpius, Geneva, Switzerland.

"A cell biology approach to the mode of action of neuropeptide. The GH3 cell model" -- A. Tixier-Vidal, Paris.

2. World Psychiatric Association

In a session on "Critical Issues in Alcoholism and Drug Abuse":

"Common factors in substance abuse disorders" -- Jerome Jaffe.

"Psychiatric disorders and drug abuse" -- Herbert Kleber.

"Other drug dependencies and alcoholism" -- Herbert S. Peyser.

"An international view of the epidemiology of alcohol and drug abuse -- perspective from WHO" -- Norman Sartorius.

"Genetics and alcoholism" -- Donald Goodwin.

"What if anything is inherited in alcoholism? Differences between children of alcoholics and controls" -- Mark Schuckit.

"Overview of brain receptors and opiates" -- Avram Goldstein.

3. American Public Health Association (preliminary program)

"(Epidemiology of) pancreatic cancer" -- Ellen Gold.

"Time trends of pancreatic cancer mortality in the State of Maryland" -- Ruey Lin.

"Epidemiologic findings in cancer of the nasopharynx" -- Kiyohiko Mabuchi and Irving Kessler.

**Leonard
Zahn** PUBLIC RELATIONS COUNSEL
and Associates, Inc.

(P. O. BOX 223) 13 LINCOLN ROAD • GREAT NECK, N.Y. 11021 • (212) 893-7445

4595269

- "The development of a model occupational cancer education curriculum" -- Debra Roter.
- "Asbestos survey on ex-workers" -- Gabriel Wong.
- "The sword of Damocles? Living at risk after asbestos exposure" -- Katherine Brown-Keister.
- *"Physiologic, behavior and knowledge characterization of smoking asbestos exposed workers" -- Virginia Li Wang et al.
- "Statistical methods in risk estimation" -- David Hoel.
- "Aspects of risk/benefit analysis" -- John Bailar III.
- "The historical perspective: cancer control efforts in the U.S." -- Lester Breslow.
- "The federal perspective: cancer control through applied prevention" -- William Terry.
- "Mass media campaign for cardiovascular disease prevention" -- Russell Luepker.
- "Spouse behavior and coronary disease: results from the Framingham Heart Study" -- Elaine Eaker.
- "Factors relating to the completeness of cancer reporting in health surveys" -- Monroe Sirken.
- "Cancer incidence in a population living near a nuclear installation: a proportionate morbidity ratio analysis of cancers of radiosensitive organs" -- Carl Johnson.
- *"An evaluation of Metropolitan Life's stop-smoking program" -- Andrew Brennan.
- *"Viable smoking cessation program in high-risk occupational settings" -- G. Roger Cadwalder.
- *"Metaevaluation (sic) of eight smoking and alcohol abuse reduction programs" -- Thomas Rundall.
- *"Effects of smoking, alcohol and caffeine use during pregnancy on birth characteristics of offspring" -- Jan Kuzma.
- *"Social factors associated with reduced fecundity and spontaneous abortion in Denmark" -- Pamela Rachooten.
- *"Maternal body weight and pregnancy outcome" -- George Tokuhata.
- *"One thousand birth epidemiological surveys" -- Reinert Ravenholt.

- "Development of positive health behaviors in preschoolers" -- John Bruhn.
- "Birth defects: the challenges for surveillance" -- Godfrey Oakley.
- "Reproductive hazards: methods for detection in females" -- Patricia Buffler.
- "Reproductive hazards: methods for detection in males" -- Kim Hooper.
- "Marketing a new state-wide health information service: a case study in cancer" -- Richard Windsor.
- "Does health education need to become more forceful?" -- Godfrey Hochbaum.
- *"Influence of a biochemical measure of smoking behavior on self reports by adolescents and their mothers" -- Karl Bauman.
- *"Life skills training and smoking prevention: a one-year follow-up" -- Gilbert Botvin (Poster).
- *"Cigarette smoking onset time among adolescents" -- Brian MacPherson (Poster).
- "The effects of a self-management program on cardiovascular 'at risk' students" -- J.V. Schindler (Poster).
- "Teachers' attitudes and knowledge about cancer" -- Dorothy Parker.
- *"An evaluation of the efficacy of a biofeedback smoking education program" -- Ted Chen.
- *"Change in smoking status among school-aged youth: impact of a smoking awareness curriculum, attitudes, knowledge and environment" -- Linda Pederson.
- *"Degree of rurality and pressures to smoke among 7th grade students" -- David Holmes.
- *"Peptic ulcer disease, smoking and pepsinogen I" -- John Kurata.
- *"Coffee, tea, diet soda, and chronic obstructive pulmonary disease" -- Bernice Cohen.
- *"Evidence for compensation in smokers of low yield cigarettes" -- Diana Petitti and Gary Friedman.
- "Threshold and seasonal effects of air pollution on morbidity" -- Thomas Chen.
- "Statistical methods for assessing the long-term health effects of ambient exposure to air pollutants" -- David Abbey.

"Maternal mortality of the world population today" -- Bea van den Berg.

*An afternoon session on "Risk Reduction Programs in Schools, Communities and Industries" includes two papers on smoking by adolescents.

*A session on "Tobacco and Reproductive health" has these papers:

"Overview of smoking and reproductive health" -- Lawrence Longo.

"Cigarette smoking in pregnancy and postnatal development: A longitudinal study of all children born April 5-12, 1970, in Great Britain" -- David Rush et al (including Neville Butler).

"Effects of smoking, alcohol and caffeine use during pregnancy on birth characteristics of offspring" -- Jan Kuzma (also listed elsewhere on the program).

"Smoking and lung cancer: women of Mexican origin" -- Susan Holck.

"Influence of observing carbon monoxide level on cigarette smoking by prenatal patients" -- Karl Bauman.

4. Cancer 1981/Cancer 2001

"Lung tumor studies in vitro: establishment of oat cell carcinoma and other lung tumors" -- Olive Pettingell, Hanover, N.H.

"Nutrition and cancer: a review of relevant mechanisms" -- John Weisburger, Valhalla, N.Y.

"Selenium and cancer" -- Dan Medina, Houston.

"Cancer families" -- Louise Strong, Houston.

"Cancer and genetic disease" -- James German, New York.

"Genetic models of mutation and cancer" -- Alfred Knudson, Phila.

"Susceptibility to cancer" -- Daniel Miller, New York.

"Viral carcinogenesis" -- Harold Varmus, San Francisco.

"Molecular mechanisms of initiation and promotion in chemical carcinogenesis" -- I.B. Weinstein, New York.

"Chemical carcinogens" -- Charles Heidelberger, Los Angeles.

"Metabolic determinations of mutagenesis" -- Bruce Ames, Berkeley, Cal.
