## CONTENTS AND DIGEST

### ORIGINAL ARTICLES

**Symptomatology and Localization of Brain Tumor.** William G. Spiller, M.D., Philadelphia ..... 579  
Important indications of brain tumor. An important symptom-complex frequently overlooked. Interpretation of symptoms of brain tumor. Limitations of motor area. Diagnostic difficulties. Sudden fatal termination. Jacksonian epilepsy as an indication for operation.

**Importance of Animal Experimentation in the Development of Our Knowledge of Dysentery, Cholera and Typhoid Fever.** Mark Wyman Richardson, M.D., Boston ..... 588  
Method of studying these diseases. Pfeiffer's discovery. Its importance. Practical results. Evidence of value of animal experimentation in saving human life.

**Alcohol as a Poison.** T. D. Crothers, M.D., Hartford, Conn. .... 590  
Common errors in regard to alcohol. Alcohol a protoplasmic poison. Alcohol as a chemical poison; as a circulatory poison; and as a poison to the brain and nervous system. Poisonous action of alcohol on metabolism, nutrition and digestion. Alcohol as a systemic poison.

**The Bacteriemia Theory of Tuberculosis; A Refutation.** Joseph McFarland, M.D., E. Burville-Holmes, M.D., E. J. G. Beardsley, M.D., and Eugene A. Case, M.D., Philadelphia ..... 593  
Bacteriemia theory of Rosenberger. Methods of testing it employed. Results. Later researches of Brem and their importance.

**Migraine.** Sidney Kuh, M.D., Chicago. .... 595  
Review of the subject. Character of the pain. General symptoms. Treatment.

**Diagnosis and Treatment of Amebic Ulceration of the Large Intestine.** A. B. Cooke, M.D., Nashville, Tenn. .... 598

**The Early History of Abdominal Surgery in America.** Henry O. Marcy, M.D., Boston ..... 600  
Interest in the subject. Dr. Ephraim McDowell, the father of ovariectomy. Hysterectomy. Burnham, Peaslee and Storer. Work of Sims, Emmett and Thomas. Introduction of ether anesthesia in England. Adoption of antiseptic method. Buried animal suture. Surgery of the biliary tract.

**Luetic Lymphoma in Late Syphilis.** Douglass W. Montgomery, M.D., and George D. Culver, M.D., San Francisco. .... 605

Report of case. Differential diagnosis of the condition. Its rarity. Treatment.

**General Therapeutics and Surgery in Dentistry.** A. Dray, M.D., Philadelphia ..... 608

Neglect of general therapeutics and surgery by dentists. Exaltation of the mechanical side of his work. How dentist's profession suffers from this. Duty of dentists. Need of radical change in dental college instruction.

Discussed by Drs. Rheln, Fisher, Power, Allen and Dray.

**Neisser Bacterin in Chronic Gonorrheal Urethritis.** George B. Lake, M.D., Wolcottville, Ind. .... 611

**Suppurative Perigastritis.** G. A. Friedman, M.D., New York ..... 611

Case with tumor formation following perforated gastric ulcer of the greater curvature.

**Calcium in Tuberculosis. A Note on its Effect on the Temperature Curve.** Louis A. Levison, M.D., Toledo, Ohio. .... 613

**Maxwell**  
 "The Economy Car"

**\$600**

**12-H.P. RUNABOUT**

**"This Physician's Car Can be Run  
 5000 Miles a Year at an Average  
 Total Cost of \$2.06 a Week"**

**H**ERE is a runabout that will interest thousands of physicians who have considered an automobile beyond their means—not because they could not afford to buy one, but because they have felt they couldn't afford the cost of maintaining one. And it's true, that the expensive "up-keep" of most automobiles has put them beyond the reach of men with moderate incomes. Not so with Maxwells. Our cars are the most economical to run—as 21,869 Maxwell owners have proved. Year after year we have kept improving, simplifying and decreasing weight. Until now we are satisfied that in this "Physician's Runabout" we have the cheapest car to maintain. We propose to tell you in dollars and cents just how little it costs to keep this Maxwell, and this is just what you cannot find out about other cars before you buy them.

#### **BASED ON FACTS**

When we say you can run this Runabout 5000 miles a year at an average cost of \$2.06 a week, or (\$107.28 per year), we are not theorizing. These figures are based on facts. Please note that we have included the cost of gasoline, oil and grease necessary to run this car 5000 miles; the cost of the average number of punctures, the cost of two extra tires, which may not be needed, and the average total cost of repairs, which owners have paid us for new parts on this model. Astounding as it may seem, this amounts to but \$1.10 per car per year. If you live in the country, and have a shed or barn in which to store your Runabout, you can depend on these figures. In compiling these figures we have omitted depreciation.

#### **LET US HELP YOU**

Proper care is of vital importance in keeping down the cost of maintenance of any car. Let us help you, as we have thousands of Maxwell owners. For of course to run this car at the low cost stated above, you must run it with proper care. Let us send you a copy of our magazine "The Co-Operator," and our latest catalog. Also "How to Judge an Automobile," written by an authority on this subject and mighty valuable to every physician, together with booklet describing the 10,000 mile non-stop run made by the Maxwell last season—a world's record never equalled by any car.

The purpose of this advertisement is not to get you to *immediately* buy one of these Runabouts—but to make you realize that at least here is a "physician's car" within your means and to show you just how *little it will cost to run and maintain it*. We hope we have aroused your interest in the Maxwell, so that you will want to know all about it. Then when you have fully satisfied yourself we would like to sell you this "economy car"—to help you to take good care of it, and add to your convenience and to your profits.

**IF** you decide you can afford to run this "Physician's Runabout" 100 miles per week at an average total weekly cost of \$2.06, then place your order with the nearest Maxwell dealer. The first thing to do is to write us a post card and simply say, "mail books." You will get the complete set by return mail—all free, of course.

#### **SALE of MAXWELL CARS to DATE**

# Pneumo-Bacterin

## (Pneumococcic Vaccine)

**T**HE mortality from pneumonia, which has remained practically unchanged for the past one hundred years, shows a marked reduction from the Vaccine treatment. (See article on the use of Bacterial Vaccines in the treatment of pneumonia, published in the *Boston Medical and Surgical Journal*, November 11, 1909.)

**Series of cases treated with Vaccine, 83.  
Mortality, 8; death rate, 9 7-10 per cent.**

**Of the above, 34 cases were alcoholic pneumonia.  
Mortality, 6; death rate, 17.7 per cent.  
Previous death rate from alcoholic pneumonia,  
41 to 53 per cent.**

**Series of 49 cases of ordinary pneumonia.  
Mortality, 2; death rate, 4.1 per cent. Eight came to crisis in three days.  
Previous death rate, 20 to 24 per cent.**

A collective investigation of Pneumo-Bacterin in the treatment of lobar pneumonia is now under way, conducted under professional control. In order to extend the scope of this work, we supply

**Pneumo-Bacterin, four aseptic glass syringes in each package, \$3.50  
Single syringes, each, \$1.25.**

Syringe A contains	50 million killed bacteria.
" B "	100 " "
" C "	200 " "
" D "	400 " "

Dose, 10 to 50 millions, every four to eight hours, progressively increased.

For the treatment of indigent cases, we will supply Pneumo-Bacterin without charge, with the understanding that full reports will be made to State or County Medical Societies or to the Medical Press whether the results obtained are favorable or otherwise. Our interest lies principally in making it possible for the medical profession to prove or disprove the value of the bacterin treatment of pneumonia.

The following points are important:

- 1. Early diagnosis.** Do not wait for appearance of rusty sputum.
- 2. Early administration of Bacterin.**
- 3. Necessity of full doses,** 10 to 50 millions, progressively increased, every four to eight hours.
- 4. Harmlessness** of the vaccine treatment.

There is No Excuse for  
Suture Trouble if you use

*"VanHorn" Catgut*

There may be reasons, but if surgeons all over this country can report series of fifty, one hundred or even two thousand consecutive cases in which *"VanHorn"* Sutures and Ligatures have been used exclusively without the slightest infection or other trouble, why should you or any one else have any difficulty?

There are probably abundant reasons if you do, but *no good excuse*, in which event

is it not the *SURGEON*—rather than the *Suture*—that is to blame?

# Adrenalin Ampoules

**NOW READY!**

## Ampoules of Adrenalin Chloride Solution, 1:10,000

(1 Cc. GLASS CONTAINERS)

**FOR HYPODERMATIC INJECTION.**

Adrenalin Chloride Solution has become a necessity in medical and surgical practice. The most powerful of astringents and hemostatics, it lends itself to many practical uses and at little risk of injury in reasonably careful hands.

Since the time of its introduction it has been marketed in ounce vials, and of the strength of 1:1000. Experience has shown, however, that a weaker solution is much more frequently required than the "full strength"; and while it is generally an easy matter to dilute with water or normal saline solution, in certain emergencies an already fully diluted preparation is to be preferred. While the danger of deterioration from occasionally opening a vial containing a solution of Adrenalin Chloride is not great, taken in connection with the fact that a dose is needed now and then for hypodermatic injection, it is believed that much may be urged in favor of the small hermetically-sealed package because of its greater convenience and security.

**DIRECTIONS**—Break off the neck of the ampoule at the file-mark, as shown in the illustration. Use an ordinary hypodermatic syringe. Insert the point of the needle behind the shoulder of the ampoule—not to the bottom. (See cut.) Elevate the bottom of the ampoule as the piston of the syringe is withdrawn, and the contents can be removed to the last drop.

Marketed in boxes of 1 dozen.

**See that Your Druggist is Prepared to Supply You.**

## THE AMERICAN MEDICAL DIRECTORY

SECOND EDITION ... REVISED TO DATE

Price, \$7.00, Express Prepaid  
1766 pages, size 8½x11 inches. Half Roan  
and Cloth, Gold Title, Color Purple.  
Thumb Indexed. Book will be  
shipped same day your order  
reaches us

**American Medical Association**  
536 Dearborn Ave., CHICAGO

Among the Important and New Features of this Second Edition, the following deserve special mention:

- (1) It contains the names of over 142,000 practicing physicians.
- (2) The names of specialists are indicated by a distinctive letter or abbreviation included in the general text, thus: S-Specialist in Surgery, Oc-Oculist, Pd-Pediatrician, etc.
- (3) The Alphabetical Index to the book gives the name of every physician in alphabetical order, with city and state where located. This index alone comprises about 421 pages.
- (4) The names of all physicians legally qualified to practice in the United States are given. It includes also Canada, Porto Rico, Hawaii, Canal Zone, Philippine Islands, Alaska, etc.
- (5) The list of Hospitals and Sanitaria contains 5446 names. Information is given as to date of establishment of each institution, number of beds and names of physicians in charge or director.
- (6) It contains the following information concerning each physician so far as obtainable; name in full, year of birth, medical college and year of graduation, date of state license, school of practice, membership in county, state and American Medical Association, residence address, office address, office hours, professorships held in medical colleges and specialty followed.
- (7) It is the only book which gives the names of the members of the American Medical Association; also names of members of County and State Societies. These data are taken from the official records of the Association. The present edition, therefore, combines the features of a general medical directory and society blue book.
- (8) The names of all National and Special Medical Societies are given; also names and addresses of officers.
- (9) Names of the medical officers of the Government Services, with college and year of graduation and date of present commission.
- (10) Names of officers of all National, State and County Societies are enumerated in the present edition.
- (11) List of Health Officers in cities of from 200 population or over.

Over 6000 local correspondents furnished the editorial department information regarding the local profession, and about 75,000 physicians voluntarily filled in and forwarded personal information blanks. All this matter was for the most part verified from official sources to insure its accuracy before publication.

## The Homewood Sanitarium

GUELPH, ONTARIO, CANADA

(Founded in 1883)

FOR MENTAL AND NERVOUS DISEASES

UNEQUALLED IN BUILDINGS AND EQUIPMENT

Conducted on strictly ethical principles and recognized by the Medical Profession of the Dominion of Canada.

Handsome new buildings, splendidly equipped, erected in 1907.

Most improved Hydrotherapeutic apparatus.

Special attention to mental cases requiring gynecological treatment.

A limited number of habit cases received in a separate department.

Beautiful, secluded, well wooded grounds—essentially private.

Has an altitude of 1000 feet above the Lakes.

Provision for recreation according to season

Situated in the garden of Ontario, 70 miles from Niagara Falls on Canadian Pacific and Grand Trunk Railroads.

For information and booklet apply to

DR. A. T. HOBBS, Medical Superintendent

## THE GLEN SPRINGS

Open All The Year

THE AMERICAN NAUHEIM

The Glen Springs is a Health Resort combined with a Hotel of the highest class, and entirely free from all the distressing evidences of sickness usually found in Sanitariums. (No insanity, epilepsy, tuberculosis nor any contagious or offensive disease received.) Its valuable Medicinal Mineral Springs; (our Nauheim Spring is one of the strongest Natural Brines known); its Thermal, Brine, Electrical, Radiant Heat and Light, and Nauheim Baths; (the only place in America using the Natural Brine for the Nauheim Baths); its complete Hydrotherapeutic, Mechanical and Electrical Equipment for the treatment of chronic diseases, all administered under the direction of experienced physicians; together with its excellent service and cuisine, its modern appointments, homelike features and liberal management, place it in the front rank of Resorts for Health, Rest and Recuperation. In the treatment of Rheumatism, Uric Acid, Gout, Obesity, Neuralgia, Diabetes, Digestive Disorders, Insomnia, Anæmia, Neurasthenia and Diseases of the Nervous System and of the Heart and Kidneys we offer advantages unsurpassed in this country or in Europe. Correspondence with physicians solicited. For illustrated booklet and further information, address Wm. E. Leflingwell, Pres., Watkins, N. Y.

**The SANITARY Pipe**

THE TOBACCO IS ALWAYS DRY, thus insuring a cool, clean, dry smoke. No biting the tongue.

Price, \$1.00 postpaid. Your money back if not perfectly satisfactory. Slip a dollar bill into an envelope now.

Best French Briar—Hard Rubber, Removable Stem. The most scientific and healthful pipe ever made.

Separate wells for saliva and nicotine, and a bowl device (see cut) which prevents tobacco from settling in bottom of bowl and becoming soaked or clogged. Cannot possibly become rank like ordinary pipes. Dealers wanted.

**SANITARY PIPE CO., 322 Sibley Building, ROCHESTER, N. Y.**
